TOPIC: CLINICAL RESEARCH COORDINATING

I am experienced with clinical research, but new to UNC. Is there on demand training or other resources that explain how the various parts of UNC work. The alphabet soup as it were? (CRMS, CTTC, RAMSES, IRB, OSP, etc.)

TOPIC: FINANCE

Question: (especially for small departments) From what kind of budget/funds do you draw to pay for basic UNC-system onboarding like payroll, CITI, LMS, etc., especially for pre-award situations where you need staff ready to start once the contract is signed but the startup funds are not yet secure?

TOPIC: CLINICAL RESEARCH COORDINATING

Question: What methods, tools and procedures do you use to organize PI-initiated studies?

TOPIC: FINANCE

Where can I find updates regarding fee increases? We recently received Epic invoices with \$5 lab fees tacked on to each lab ordered with no advanced notice.

TOPIC: CONTRACTING

If a study investigator decides to send de-identified data for analysis at another institution after the study is closed for recruitment with few follow ups remaining, would it be possible to get a DUA approved even if it's not feasible to reconsent all subjects?

TOPIC: CLINICAL RESEARCH COORDINATING

What is the best way to grow in this type of career?

TOPIC: CLINICAL RESEARCH COORDINATING

What is the best way to learn about the interface between OnCore and Epic? There is a training in LMS for CRMS users, but the one for OnCore users is only for Oncology staff.

TOPIC: CLINICAL RESEARCH COORDINATING

What is the criteria for whether or not a study should be entered into/managed through OnCore?

TOPIC: CLINICAL RESEARCH COORDINATING

We are trying to create 200 gmail accounts for participants for an upcoming study, have you all been in a similar situation? If so, how did you approach it? We have tried Google Workspace for Education but have hit a roadblock.

TOPIC: CLINICAL RESEARCH COORDINATING

What is an FDP, and has anyone ever used one before?

TOPIC: CLINICAL RESEARCH COORDINATING

Has anyone needed to transport a study participant recently? Are we still allowed to use Uber?

TOPIC: CLINICAL RESEARCH COORDINATING

Is anyone using Mosio to text via REDCap? Interested in using it for a new grant but wanted to check if it has worked out for others.

TOPIC: CLINICAL RESEARCH COORDINATING

Has anyone used Medical Moving Solutions for dry ice delivery? We have had trouble with AirGas delivering small boxes of dry ice intermittently to our outpatient clinic. I called the AirGas manager and he recommended this other company

TOPIC: GENERAL ADMIN

does anyone know if we have any meeting poll options other than Doodle? I have an investigator that wants to use a feature only available in the paid Doodle plan to poll non-UNC folks and so I want to be sure we don't have other options before I purchase it.

TOPIC: REGULATORY

Is there any information about whether UNC is still pursuing an electronic consent platform for studies that involve more than REDCap surveys? I'm not asking about remote consent options, more curious about how we can make some of our studies paperless that still require written consent.

TOPIC: PEER SUPPORT PROGRAM DETAILS

Will the (Peer Support) program seek to pair us with peers? And if so, is it possible to pair individuals with those in fields of interest?
